

TRINITY
MANUFACTURING, INC.

Environmental, Health, Safety & Security POLICY STATEMENT

Trinity Manufacturing strives for excellence in environmental, health, safety and security (EHS&S) performance. We are committed to providing a safe, secure and sustainable working environment for our employees, customers, contractors, and community. We will continuously improve our management systems to achieve incident-free performance in all areas.

Responsible Care at Trinity includes:

- Adherence to a management system that delivers excellence in EHS&S performance and meets required local, regional, international and business specific standards.
- Design, operation and maintenance of facilities in a safe and environmentally responsible manner.
- Stewardship of Trinity products over their life cycle by encouraging safe and environmentally responsible use and handling of our products.
- Involvement of employees at every level of the organization.
- Continuous improvement towards operating with zero incidents, achieving 100 percent compliance, and reducing our environmental, health, safety and security impact.
- Authenticity and transparency with our stakeholders.
